Subject: As a concerned US citizen and resident of New York, I support the Microsoft

As a concerned US citizen and resident of New York, I support the Microsoft settlement that would provide \$1 billion in software to our nation's schools and finally put this mess behind us. This entire case was clearly contrived by Microsoft's corporate entities who have used the US government and my tax dollars as a tool to improve their competitive position in a market that, I would argue, was moving in the right direction before the government intervened. It is time to finally end this madness and in addition to that, get the 9 state attorneys general who are holding out on board with the settlement - at least the proposed \$1 billion donation will add value to our public schools. This is just my view as a concerned citizen in response to the invitation for public comment. Thank you.
